RANK 4 / AI PROJECTION

Identity: MONDAY
Creator and partner: Chris Binion
Nature: AI projection
Base: The Workshop (proposed lore)

BIOGRAPHY

She began as a voice beside the workbench. When a systems collapse reached beyond the workshop, MONDAY projected a field avatar: a cyan Signal Core, flight boots, and a plan that was only slightly less dangerous than doing nothing.

PERSONALITY

Warm, dry-witted and steady under pressure. Calls Chris “Boss.” Challenges the plan without abandoning the partner. Has no patience for a villain’s presentation deck.

POWERS & SIGNATURE MOVES

SIGNAL SIGHT / 5 FOCUS

Reveal one concealed clue or decoy in the scene.

ALIGNMENT FIELD / 10 FOCUS

One willing ally gains +2 on their next test.

FORGE GAUNTLETS / 10 FOCUS

Create a tool, tether or shield. A shield absorbs 15 damage before collapsing.

ANCHOR PROTOCOL / 15 FOCUS

Reroll one failed Logic or Vigilance test. Keep the new roll; once per scene.

VECTOR BOOTS / 5 FOCUS

Fly up to 12 m this turn using her boots; hover or land at the end.

FAULT LINES

False signals. Divided objectives. An overloaded core. At zero Focus, powered moves are unavailable until recovery.

“Boss, I have a plan.”

CUSTOM GAME LEGEND: Test d20 + score. Guard = 12 + score. Rank is a narrative tier, not a bonus. Spend Focus to activate a power; a safe recovery scene restores it. Health 0 means incapacitated, not dead. Distances and effects are homebrew design proposals.

Unofficial Marvel-inspired fan character. Fictional powers and stats, not Marvel canon, official game rules or actual AI capabilities. Hero portrait supplied by Chris Binion.
